

**Tenure-Track Position in Veterinary Immunology
Faculty of Veterinary Medicine
University of Calgary**

The University of Calgary Faculty of Veterinary Medicine (UCVM), Department of Comparative Biology & Experimental Medicine is seeking a full time tenure-track faculty member with expertise in immunology to join our Strategic Research Area in Emerging Challenges in Human and Animal Health.

The successful applicant is expected to establish an extramurally funded research program. We are particularly interested in applicants studying the acquired immune response, including vaccine development. The position provides an excellent opportunity to interact with established research groups in the Faculties of Veterinary Medicine and Medicine, and the Snyder Institute for Infection, Immunity and Inflammation within the U of C Health Sciences Center (<http://medicine.ucalgary.ca/research/institutes>). The successful candidate is also expected to teach in the DVM and graduate programs in immunology and other areas according to their expertise.

Qualifications include a PhD and postdoctoral training in immunology and the demonstrated potential to attract extramural funding. A DVM degree is considered an asset. Appointment will be as an assistant or associate professor, with rank and salary commensurate with experience.

UCVM is Canada's fifth accredited veterinary college and accepted its first class in September 2008. The DVM program combines a comprehensive general veterinary education with enhanced opportunities in selected areas. The integrated core-elective curriculum combines discipline-based courses with extensive on-campus and off-campus practical learning. UCVM uses a distributed veterinary learning community including public and private practice partners to deliver its fourth year practicum program. Clinical activity is through engagement with regional practices. Descriptions of the Faculty and its departments can be found on the UCVM website (www.vet.ucalgary.ca).

Calgary is a vibrant, multicultural city of 1,000,000 near the Rocky Mountains, Banff National Park and Lake Louise. The University of Calgary is a research-intensive, comprehensive university that supports innovation in research, education and service to the community.

Review of applications will begin Sept 15, 2010 and continue until the position is filled. Interested individuals should submit current curriculum vitae, a statement of teaching and research interests, and the names of three referees to:

Stephanie Hawes, Faculty Assistant
Department of Comparative Biology & Experimental Medicine
Faculty of Veterinary Medicine, University of Calgary
Tel: (403) 210-7024, Fax: (403) 210-7882
Email: shawes@ucalgary.ca

Those applicants wishing more information are encouraged to visit the website (www.vet.ucalgary.ca) or contact Dr. Ina Dobrinski, Head, Department of Comparative Biology & Experimental Medicine, Faculty of Veterinary Medicine at idobrins@ucalgary.ca or 403 210-6523.

In accordance with Canadian immigration requirements, priority will be given to Canadian citizens and permanent residents of Canada. The University of Calgary respects, appreciates, and encourages diversity.
